Possible links to the Rockefellers, Rothschilds, Adamses, and Bushes. Reviewing the evidence, documents, and connections, The Illuminati: The Secret Society That Hijacked the World by award-winning journalist and author Jim Marrs shines a light on the history, workings, continuing influence, and pernicious and hidden power of this secret order. Surveying experts—from those who dismiss the Illuminati as a short-lived group of little consequence to skeptics who dare question the government's accounts and pronouncements—Marrs cuts through the wild speculation and the attempts to silence critical thinkers to tell the true story of this secret cabal. He investigates their origin as "The Ancient and Illuminated Seers of Bavaria," the depiction on the United States one-dollar bill of an all-seeing eye and pyramid on the reverse of the Great Seal of the United States, the Protocols—or procedures—for usurping national governments and gaining world domination, the symbolism found in today's international corporate logos, Knights Templar, assassins, Skull and Bones, whistle blowers, the revolutions in France, Russia, and America, and much, much more. Wealth, power, and intrigue come together in this in-depth exposé on the Illuminati, their history, connections to powerful people, and their place in modern America.

The Illuminati - Secrets of a New World Order The word "Illuminati" has, in recent years, become a catch-all buzzword for conspiracy theories of all sorts. It is a whispered response to strange happenings and seeming coincidences, a screamed retaliation to imbalances of power, a chanting pulse to the unknown. The Illuminati has become a permeating presence whose reality and legends have become intertwined, nearly inseparable on an individual level. As far as whether or not the Illuminati still exists today--well, that's up to you to decide.

If you've ever read any self-help books, you'll know that many of them are quite the same. They talk about dealing with people, leading, managing, making money, making good decisions, building things, and cultivating the type of attitude that is necessary to have for success, among other things. So, there's a lot of common denominators in self-help books. If you read a top success book, however, they're a little bit different - a little bit more straightforward, a little bit more of the WEALTH mindset built into them, which is a no-nonsense, honest approach designed to maximize the reader's time. These books just want to give you the facts and the information needed to get the job done. This little summary covers a number of key topics, ideas, and concepts that will help you get into the mind of leaders like Trump, Pickens, Gates, Bezos, Google's Page, and other billionaire entrepreneurs. I am not a profiler, but you could call me a scientist of behavioral leadership and metaphysics. Mind you, I've read hundreds of books written by success gurus, world leaders, and billionaires, and, based on these observations, here are some of the fundamentals that make up the character of someone who makes it BIG. With the information in this book, you will be informed of how top performers think and, more importantly, how a self-made billionaire views you and your ethics. Don't forget that top leaders have been making billions for 20+ years and have been paying and leading thousands of employees for decades. They have been working tirelessly for decades to become the best they can be, improve their community, be a master builder and philanthropist, and defend his nation: thus, success is NO accident. This work was originally commissioned at the request of George Mentz at the conclusion of a 25-year research project based upon conversations of over 500 global leaders in over 50 countries, including such self-made giants as CEOs, inventors, MVP Athletes, world champions, presidents, bishops, kings, royalty, billionaires, and top gurus on the subject. The Law of Achievement was first delivered as a lecture, and part of this famous guidance was given in China, Arabia, Europe, India, Latin America, the West Indies, and throughout Asia. To go to the next level, read this book intently, contemplate the timeless wisdom contained, take action, and become a master of your destiny. This is the timeless framework for achievement and progress that has been proven to work over the last 25 years. "Belief is the energy that animates the wings of the soul." GM

Herein, we are talking about how to awaken from the illusion and develop your powers of perception, and learn to see the world in a smarter way while being more cognitive, and more responsive than 99% of the rest of the world's population. The first question is do you believe in a intelligent life force, an abundant world, or a beneficent spirit of the universe. The spiritually enlightened person might say I don't believe, but I know there is a framework and force, more powerful than gravity that controls the great laws of metaphysics, success and happiness. To begin with, the key really is to learn to look in the mirror and respect & love creation. Herein, we will discuss further ideas to help you tap into the intelligent force of the universe where we can begin to transcend the unseen laws of nature and reach your authentic potential. We're all evolving in human consciousness. We're all created for a purpose. How can you get closer to your "raison d'etre" or your Reason to Be. And as St. Augustine implied, it's unnecessary to struggle. There's no need for unnecessary suffering. If we were willing to draw closer to the life force of the universe, we can grow and change without needless struggle. In Buddhism, the source of suffering is Trishna which is "clinging or grasping". In the I Ching, the Book of Changes advises students to take action in tandem with the momentum of their life. Therefore, what can we do to hack the brain and go to the next level of speculative and operative metaphysics.
