Charges An Overview

Each participant should pay fixed charges in proportion to ownership which, in turn, should be proportional to benefits received. It is the purpose of this thesis to introduce an equitable way to allocate fixed costs of a transmission line based on benefits received. It is presumed in this thesis that benefits of transmission lines

A cost allocation framework for lp and glp games - CORE
Hence, the allocation of fixed transmission cost assigned to each load bus can be expressed as: (4.3)
$$FC_j = z_j \cdot \text{cont} \cdot \sum_{j=1}^N z_j \cdot \text{cont} \cdot EC$$
 where: $z_j \cdot \text{cont}$ is defined in Eq. (4.2); N is the number of load bus j , EC is the annual embedded cost of transmission (Revenue Requirement); FC_j is the annual embedded transmission capacity cost corresponding to bus j .
