For the first time ever, a comparative survey of 95 percent of the fiberglass pocketcruising sailboats ever built Author Steve Henkel has researched hundreds of cruising sailboats less than 26 feet long--pocket cruisers--to create this definitive gallery and handbook of the small cruising sailboats built in the last 45 years. With detailed plans, specifications, performance indexes, and commentary for every model the author could find (360 in all!), The Sailor's Book of Small Cruising Sailboats is your ideal core reference for the used and new boats you see on the water.

Affective Health and Masculinities in South Africa explores how different masculinities modulate

substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African "tradition" that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

This all new edition is a totally updated cruising guide covering the entire Pacific coast of Mexico from The US Border, down the Baja Peninsula, around up into the Sea of Cortez all the way north to San Felipe, across to Puerto Penasco and south to Puerto Madero/Chiapas. There are 61 additional charts with extensive coverage of the Sea of Cortez, including Topolobampo and Altata on the mainland coast. The charts have valuable information on entrances, dinghy landings, marinas, dangers, ferry routes, anchorages, shore attractions and amenities, and GPS waypoints, to name a few. The introduction and

appendices cover everything from entrance requirements, to sun protection, bug screens, radio frequencies, Spanish vocabulary, what to have onboard, fishing, how to deal with pets in paradise, and much more. And don't forget the QR codes, which are linked to videos, websites, marinas, city maps, and even whale watching information!

After their 43-foot schooner was stove in by a pod of killer whales, the Robertson family spent 37 days adrift in the Pacific. With no maps, compass, or navigational instruments, and rations for only three days, they used every survival technique they could as they battled 20-foot waves, marauding sharks, thirst, starvation, and exhaustion.
