From Aviation Supplies & Academics, trusted publisher of Federal Aviation Administration resources. This book is also available bundled with ASA Inspection Authorization Test Prep. This FAA-CT-8080-8D is the most current testing supplement, released by the FAA in June 2008. It supersedes the earlier FAA-CT-8080-8C, dated 2005. This publication was prepared by the Flight Standards Service of the Federal Aviation Administration (FAA) for the specific purpose of Inspection Authorization (IA) testing at selected testing centers. Applicants for Inspection Authorization Certificates will be required to use FAA-CT-8080-8D, Computer Testing Supplement for Inspection Authorization, to answer the computer-assisted IA airman knowledge test questions. The supplement material consists of excerpts of selected advisory circulars, airworthiness directives, Code of Federal Regulations, type certificate data sheets, aircraft specifications, FAA orders, and forms. Applicants should note that reference material contained in this supplement is for testing purposes only. To ensure current material is available for use in day-to-day certification activities, users should be aware that they must initiate and order the publications desired, and maintain contact with the managing FAA office for the latest information, forms, and guidance.

This collection of essays explores the history of Russian imperialism, an especially pertinent topic in light of the newly democratic country's entrance into the geopolitical forum-the country's tenuous relationship with Europe was anticipated by Russian historian Nicholas Danilevskii. Some may argue conflicts such as Chechnya are remnants of the imperial thirst for dominance, and that the ever-evolving nation is still fighting old wars over her image as an empire. The works contained in this book trace some of these encounters, and in turn, provide a backdrop for those of today.
