USING YOUR NEW CARRIER SYSTEM Your Carrier heat pump system is controlled by a wall--mounted thermostat installed inside your home. Because there are so many thermostats available, please refer to the owner's manual supplied with your thermostat for complete details on system operation.

### Owner's Information Manual - Carrier

Heat pumps do run longer and put out less heat as compared to a furnace. But if the temperature is above the mid 30's and it's still running all the time, you could have a service issue, such as leaking refrigerant, a frozen outdoor unit (as we mentioned in heat pump troubleshooting problem #1), or compressor problem.

### Heat Pump Troubleshooting: 3 Common Problems and Solutions

Carrier heat pump models . Carrier heat pumps come in three models – Comfort, Performance, and Infinity. The most affordable model is the Comfort Series, which is also the least efficient. The three Comfort Series units all use single-stage scroll compressors and have excellent cold-weather performance.
