Over My Head is by turns heartbreaking, inspiring, and ultimately the story of a doggedly determined woman who creates a new life for herself. Dr. Claudia Osborn is a 34-year-old internist in Detroit who goes biking with her roommate, and some careless driver makes an overly wide turn and hits her bike, throwing her on her head and giving her a major concussion.

Unlike the more famous book, " My Stroke of Insight," Dr. Osborn tells the truth. In "My Stroke of Insight" the author leaves the impression that if you work hard you can recover. All survivors can recover to a degree but not many recover without some disability. Claudia Osborn has hit a home run with "Over My Head."

I'm 70 now and have mentioned to my doctor ,but still I wonder if I should be concerned. I don't have head aches. My neck and some pain in shoulders normally ache ,but again I can hear popping in my ear and neck,so I do think its arthritis . The head pain is what's concerning. Any ideas suggestions. Thanks

Usually the skull is fractured as well. As the injured vessel bleeds, blood collects in the space between the skull and the dura, the outermost of the three membranes that cover the brain. This collection of blood is called a hematoma. The hematoma can expand within the skull and press on the brain, causing death.
