The Amber Diceless Roleplaying Game is a role-playing game created and written by Erick Wujcik, set in the fictional universe created by author Roger Zelazny for his Chronicles of Amber. The game is unusual in that no dice are used in resolving conflicts or player actions; instead a simple diceless system of comparative ability, and narrative description of the action by the players and gamemaster, is used to determine how situations are resolved. Amber DRPG was created in the 1980s, and is much

The AMBER DICELESS ROLEPLAYING (AMBER for short) is a different game, with a different approach to rules and to roleplaying in general. Even now, some 13 years after its publication and despite the fact that only one supplement is available, it has a very large community of devoted fans (including a very strong web-presence, with many Internet sites proposing campaign journals, house rules and other paraphernalia).

Based on a series of ten fantasy novels that were written from 1970 to 1991, the Amber Diceless roleplaying game details the tension between the only two real worlds in existence: Amber and the rival Courts of Chaos. Residents of these two kingdoms possess sorcery and abilities beyond those of mortal men, and much of the game revolves around intrigue and out-and-out combat between various factions.

There are two differences between the quotes in Shadow Knight and the published version of Prince of Chaos. At first I was very confused. I had people accusing me of 'making up the quotes' or 'getting it wrong' in the role-playing material. So, of course, I compared all the quotes in Shadow Knight with the manuscript pages I was sent.

Lords of Gossamer & Shadow Our world is but one of untold many, a flux of chance caught in the struggle between form and cacophony. Always, these forces are at war, shaping the infinite worlds. The immortal, self-appointed sovereigns of battle move between planes of reality with impunity: they are creators, shapers, and destroyers of worlds. In Lords of Gossamer & Shadow, you are caught up in this immense conflict. Possess unique and idiosyncratic magical artifacts, command legions drawn from the myriad of otherworlds, and wield incredible powers that alter the very substance of reality. Whether born into it or discovering it later, your character has inherited a legacy of unimaginable power... and with it great danger! Lords of Gossamer & Shadow is an original sourcebook and role-playing game using Erick Wujcik's Diceless Role-Playing system (used in Amber Diceless Role-Playing). This is a standalone product with an original setting, though it is compatible with Amber Diceless Role-Playing.

Following the cliffhanger ending of Blood of Amber, Merlin is stranded in a surrealistic Alice in Wonderland-esque bar where the Mad Hatter serves cocktails. Managing to escape, Merlin meets new family members -- one of whom is intent on killing him. As events escalate, Merlin finds himself surrounded by his worst enemies including his ex-girlfriend -- back from the dead.

Awakening in an Earth hospital unable to remember who he is or where he came from, Corwin is amazed to learn that he is one of the sons of Oberon, King of Amber, and is the rightful successor to the crown in a parallel world. Reissue.

World War II veteran Edward Bond's recuperation from a disastrous fighter plane crash takes a distinct turn for the weird when he encounters a giant wolf, a red witch, and the undeniable power of the need-fire, a portal to a world of magic and swordplay at once terribly new and hauntingly familiar. In the Dark World, Bond opposes the machinations of the dread lord Ganelon and his terrible retinue of werewolves, wizards, and witches, but all is not as it seems in this shadowy mirror of the real world, and Bond discovers that a part of him feels more at home here than he ever has on Earth.

Amber reveals the mysteries of King Oberon's disappearance, the hellwitch's identity, and the magical pattern that holds the kingdom of Amber together, but his victory over the Dark Lands remains in doubt

□In the final novels of his ten-book Amber series, Roger Zelazny rewarded readers with several startling revelations about his fantasy universe. Fans discovered for the first time that Amber is not the one true world of which all others are but Shadows. Rather, the mysterious Courts of Chaos preceded the creation of Amber. It was also revealed that the mad mage Dworkin was the father of Oberon, founder of Amber's ruling dynasty, and that Dworkin's origins go further back in time than the founding of Amber itself. The Dawn of Amber is a prequel series, exploring events that precede the first novel in the series, that answers these intriguing questions. Here, in Book One, you'll meet the young soldier known as Obere as he's whisked away from the kingdom and world he has known and defended his entire life, and placed on a knife's edge of turmoil, intrigue, domination and death. He must learn what he can on the fly, unwilling to let friend and foe alike know how little he understands of this strange universe and the dangerous creatures that rule it. His life is in jeopardy, as is the entire House of Dworkin—the result of an ages-old blood feud that threatens to destroy Obere's new-found family and any hope for a universe of light to balance and oppose the forces of Chaos and darkness. To achieve his legacy of power and become a player rather than a pawn in this deadly game whose rules he is yet to discover, Obere must journey into the serpent's lair, the home of his enemies . . . the Courts of Chaos.
