The TOGAF 9 certification program is a knowledge-based certification program. It has two levels, leading to certification for TOGAF 9 Foundation and TOGAF 9 Certified, respectively. The purpose of certification to TOGAF 9 Certified is to provide validation that, in addition to the knowledge and comprehension of TOGAF 9 Foundation level, the Candidate is able to analyze and apply this knowledge. The learning objectives at this level therefore focus on application and analysis in addition to knowledge and comprehension. This Study Guide supports students in preparation for the TOGAF 9 Part 2 Examination, leading to TOGAF 9 Certified.

Welcome to the world's most efficient method of learning Mandarin Chinese, whether you are striving to learn Chinese on your own, or studying in a classroom setting. Part of the widely-used and highly acclaimed Kubler series, Intermediate Spoken Chinese provides separate but integrated "tracks" to help you learn to read, write and speak Chinese efficiently, at your own pace. Some students and teachers wish to emphasize speaking ability first, whereas others want to focus on learning to read and write Chinese at the same time. These Chinese language study books allow you the flexibility to acquire the spoken language and the written language with the method that best fits your needs. Intermediate Spoken Chinese allows you to experience real-life situations in different Mandarin-speaking locales. (It also exposes you to the authentic range of Chinese accents; you're not limited only to learning an imaginary "textbook Beijing accent" as in other books). Each of the everyday situations explored here—from shopping at a market to playing unexpected phone tag—is one you're likely to encounter as you interact with Chinese language speakers. You can choose to use this book with its corresponding Intermediate Chinese Practice Essentials Workbook, available separately, that offers you a wide range of one-of-a-kind activities to help you practice the language skills you learn

here. Key features of Intermediate Spoken Chinese: Clear and detailed explanations of natural, colloquial Chinese grammar, pronunciation and usage Recommended strategies to help you learn to speak Chinese more efficiently Experience the actual speaking styles of Chinese people in various parts of mainland China as well as Taiwan, Macao, Hong Kong, Singapore, and Malaysia Notes on Chinese culture and society allow you to understand situational etiquette Discussions of challenges faced specifically by English speakers who are learning Chinese and how to overcome them Downloadable audio recordings by native speakers of all the vocabulary, dialogues, and other vital items A separate Teacher's Guide and a full character transcript (Simplified and Traditional) are both available electronically Accompanying digital content contains 56 videos shot on location, which allows you to view conversations involving Chinese speakers from different parts of China Feel confident traveling in the Mandarin-speaking world; with this language learning set you will be speaking Chinese gracefully and fluidly in no time.

"The home-study seminary program is designed to help you strengthen your understanding of the gospel of Jesus Christ and apply its teachings in your daily life through a study of the scriptures. For your study this school year, you will first complete reading assignments from the scripture text for this course—the Book of Mormon—and then you will complete the individual lessons. Once a week you will meet with a seminary teacher to submit your work and participate in a weekly lesson. Seminary is a daily religious education program. Prayerfully studying your scriptures should be a daily practice. You will need to work on your seminary assignments each school day, even though you will not attend a seminary class each day. There are 32 units to be completed during the course. The reading chart on page viii shows what you should study for each unit. Your teacher will help you understand when each unit is due. The lessons in this study guide should each take about 30 minutes to complete, in addition to your daily scripture study. You should have two scripture study journals (or two notebooks), separate from your personal journal, in which you will write the assignments from the study guide activities. Each week that you meet with your teacher, you should turn in the scripture study journal containing the completed assignments from the study guide activities you completed for that week. Your teacher will read and respond to the assignments and return that scripture study journal to you the following week. You could also write your responses on paper in a loose-leaf binder and turn in the pages you did that week. Then, when your teacher returns the pages, you could put them back into the notebook."

Updated with modern coverage, a streamlined presentation, and excellent companion software, this seventh edition of FUNDAMENTALS OF LOGIC DESIGN achieves yet again an unmatched balance between theory and application. Authors Charles H. Roth, Jr. and Larry L. Kinney carefully present the theory that is necessary for understanding the fundamental concepts of logic design while not overwhelming students with the mathematics of switching theory. Divided into 20 easy-to-grasp study units, the book covers such fundamental concepts as Boolean algebra, logic gates design, flip-flops, and state machines. By combining flip-flops with networks of logic gates, students will learn to design counters, adders, sequence detectors, and simple digital systems. After covering the basics, this text presents modern design techniques using programmable logic devices and the VHDL hardware description language.
